

# FOLI-R-PLUS

RIDEZ™

0-6-6

## GUARANTEED ANALYSIS:

## By Weight

Available phosphate (P<sub>2</sub>O<sub>5</sub>)..... 6.0 %  
Soluble Potassium (K<sub>2</sub>O) ..... 6.0 %

Derived From: mono and di potassium phosphate.

Also contains microbial metabolites, natural fermentation extracts and organic compounds. **RIDEZ** helps maintain healthy plant roots and rhizosphere by the colonization of beneficial bacteria and fungi.

## BENEFITS OF RIDEZ

- biodegradable ingredients.
- Highly effective as a soil penetrant.
- Derived from natural fermentation extracts and surfactants

CONTAINS NON-PLANT NUTRIENT SOURCES: Contains biological extracts of natural organisms and non-ionic and anionic surfactants.

Caution: Keep Out of Reach of Children

## DIRECTIONS FOR USE:

**RIDEZ** is recommended for use on all soils and plants. Apply **RIDEZ** early in the season, preferably before or during planting. In-furrow application is recommended.

**Sprinkler Irrigation:** Apply at the rate of 1 quart/acre with irrigation water.

## Soil Mark-out, in Furrow and Side Dress Application:

**Potatoes and Sugar Beets:** In-row treatment at time of planting. Apply at the rate of 1-2 pints/acre. Repeat at hilling/cultivation if needed. **Potato Seed**

**Treatment:** Apply at the rate of 2-4 OZ per acre seeds or 2400 lbs of potato seeds. **CAUTION: Plant the treated seeds immediately after treatment . DO NOT** exceed the rate of 4 OZ per acre seeds. (4 OZ per 2400 lb seeds).

**Foliar application:** Apply at the rate of 1 -2 pints per acre.

**Grain Crops:** Apply **RIDEZ** at the rate of 1 pint/acre in furrow or as a side dress.

**Row Crops:** Apply **RIDEZ** at the rate 1 quart per acre in Furrow or as a side dress. **Foliar application:** Apply at the rate of 1 quart per acre.

**Greenhouse crops: Inject** through the drip irrigation at the rate of 1/2 gal/acre. Repeat after 30 days.

**Compatibility: RIDEZ** is compatible with most fertilizers (including phosphates) and registered pesticides. However, compatibility jar test and small plot test is recommended before large-scale treatments are started. Always refer to products label. **TANK MIXING** Fill the tank with half the water, add **RIDEZ** and agitate to dissolve. Add dry formulations and dissolve, follow by liquids. Bring to volume with water. After thorough mixing, allow this mixture to stand for 5 minutes. If the combination remains mixed or can be readily remixed, it is physically compatible. Once compatibility has been proven, use the same procedure for adding products to the spray tank.

**IMPORTANT NOTICE TO PURCHASER:** Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price, or to replace the quantity purchased, of any defective product. In no event shall Seller or manufacturer be liable to a purchaser or user of this product for any claim for any economic, indirect, special, incidental or consequential damages, or for any injury, loss or damage, direct or indirect, to any person or property. Purchaser of this product expressly acknowledges and agrees to these terms.
